MEMORANDUM FOR: Project Director of Administration

SUBJECT

[redacted]  
(Chesapeake and Potomac Telephone Company  
Representative)

25X1

1. In a Memorandum For The Record dated 30 March 1956, [redacted], Communications Office PCS/DCI, described an incident in which the subject, a Service Account Representative for the Chesapeake and Potomac Telephone Company, visited Project Headquarters for the purpose of insuring the proper operation of a newly acquired TWI machine. As [redacted] stated, "she was presenting herself to answer any questions as to the operation of the machine, give instructions in its use if necessary, and to present us with a copy of the new TWI directory." The question has been posed as whether or not such visits by minor representatives of the Chesapeake and Potomac Telephone Company are necessary and in keeping with the best interests of maximum security.

25X1

2. In order to resolve the question, [redacted], Agency contact relative to telephone and TWI matters, was advised of the subject's visit. [redacted] stated that this was a natural procedure on the part of the telephone company, inasmuch as the telephone company is never told the use to be made of a new TWI machine. This is done to avoid any undue speculation on the part of the telephone company.

25X1  
25X1

3. A check of Security Office records proved negative on the subject, and no further action will be initiated by this office unless requested by you.
